Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This turn-of-the-century house faces north onto C Street. Like the house to the east (CT-920), it is a two-story framed and weatherboarded gable-roofed dwelling oriented with its gable end toward the front. It has a two-bay facade and is two rooms deep. There is a central brick chimney. The windows have two-over-two double-hung sash. This house differs from the one next door in that there is a two-story original cross wing built onto the east side of the house. A hipped-roof one-story porch shelters the north and east sides of the house. This porch has recently been enclosed. The original siding has also been replaced with aluminum weatherboards.

Prepare both a summary paragraph of significance and a general statement of history and support.

A shirt factory managed by Walter Lusby was located on this site during the 1920s. The factory burned in 1925. This and the house next door were reportedly built from materials salvaged from the factory building.
